

## Profile > Company Overview

Mean Well Enterprises Co., Ltd. is one of the leading switching power supply manufacturers in Taiwan . Established in 1982, it gained ISO-9001 certification in 1994. Our product lines include AC/DC switching power supplies, DC/DC converters, DC/AC inverters and battery chargers.

In order to service the growing North American market, Mean Well USA was established in 1999 to provide customers with local sales and support services. Our large inventory allows us to provide just-in-time delivery to our distributors and end-users along with our exceptional technical support for all your troubleshooting needs. Our technical resources allow us to fulfill any application selecting from our standard power supply product line or a complete ODM power supply designed around your specifications. Based on our commitment to providing exceptional service, our highly trained sales representatives and design engineers are here to help you select the correct power supply that meets all of your expectations you would want from a power supply manufacturer. Mean Well USA is committed to providing customer service in a timely manner. Please feel free to contact Mean Well USA for ALL of your power supply needs.

"Total Quality Assurance and Customer Satisfaction" are the central goals of our company. We believe that our industry is one where reliability in long-term use, functionality and cost are all of great importance, but that it is reliability that differentiates the truly superior products. So, every product in the Mean Well range is the result of rigid procedures governing design, design verification test (DVT), design quality test (DQT), component selection, pilot-run production, and mass production. We have recently implemented a new and highly efficient computerized management system. This system allows improved administration of sales, manufacturing, purchasing, fabrication management, shipping, customer service, and quality analysis, allowing us to ensure the best CQTS (Cost, Quality, Delivery Time, Service) for our customers.

Our goal is to offer total solutions that satisfy our customer's requirements. We have earned a good reputation based on the quality, competitive prices and punctual delivery of our products. This reputation has enabled Mean Well to enjoy an average of 28% sales growth in the past years. Currently, we have around 100 distributors and thousands of customers throughout the world. We have formed long-term associations with most of our customers, working together for many years, developing many treasured relationships.

We have around 2,500 standard models widely used in automation, communication, medical, moving sign, and office automation fields. Our 15,000 m2 modern facility and the intelligent information management system allow us to keep enough stock for 95% of standard models, enabling prompt delivery. To meet customers' demands, Mean Well can deliver orders ranging in size from 1 to 20,000 units. Small and medium quantity orders are offered through our local branch office or authorized distributors, helping to save time. Large quantity orders can be sent directly from Mean Well.

If you can't find a suitable model from our catalog, our talented R&D team can design a custom-made power supply to meet your requirements. With over 25 years of design and manufacturing experience in the power supply industry, we offer a total solution and would like the opportunity to become your long-term power partner.

### MEAN WELL CHINA

The Chinese market has shown rapid and vigorous development. Recognizing this, in 1993 Mean Well established its Guangzhou branch office and factory. This allowed us to cooperate more closely with our customers, satisfying their need for high quality products, which comply closely with customer requirements, at low cost and in a competitive manner. Our Guangzhou office retains the corporate culture of our head office, and alongside manufacturing high quality switching power supplies, also distributes Mean Well Taiwan products to the Chinese market. We have established sales channels for every major Chinese province, promoting quick delivery and strong after-sales service. Our experience in opening up and cultivating markets has allowed Mean Well to become both the leading brand, and synonymous with high quality, within the Chinese switching power supply market, a reputation that has ensured continuous and stable sales growth.
